AN ADDITIONAL SPRING, decided in impregnated with the celebrated "Salts of Lithia." These
Springs open for the reception of visitors on the
FIRST OF JUNE, 1874.

In most of the chronic forms of disease regarded
as remedial by mineral waters these Springs enjoy
a deservedty high reputation.

In general scapitation and curative power in diseases of women, in dyspepsia in its protean forms,
in chronic intermittent fevers, and in all diseases
generated by malarial poisons, they are without a
rival among the medicinal waters of America. The
proprietor is aware that this is a very strong claim,

monials submitted.

Since the last Spring season several valuable springs have been discovered at this place. One of them, according to an analysis made by Professor Toury, of Battimore, is decidedly impregnated with the "Satts of Lithia," which has given such celebrity to the Gettysburg spring in our own country and to the Alx is Chappelle and Vichy waters of the continent of Europe, and which is so highly esteemed in the medical world as a remedy in rout, rheumatism, and in kidney and bladder affections.
